

SETTING UP ENVIRONMENT

INSTALL IBM CLOUD CLI

Team ID	PNT2022TMID17883
Project Name	Customer Care Registry
Team Members	James Christopher, Akilesh, Harini, Jeevitha Harsini

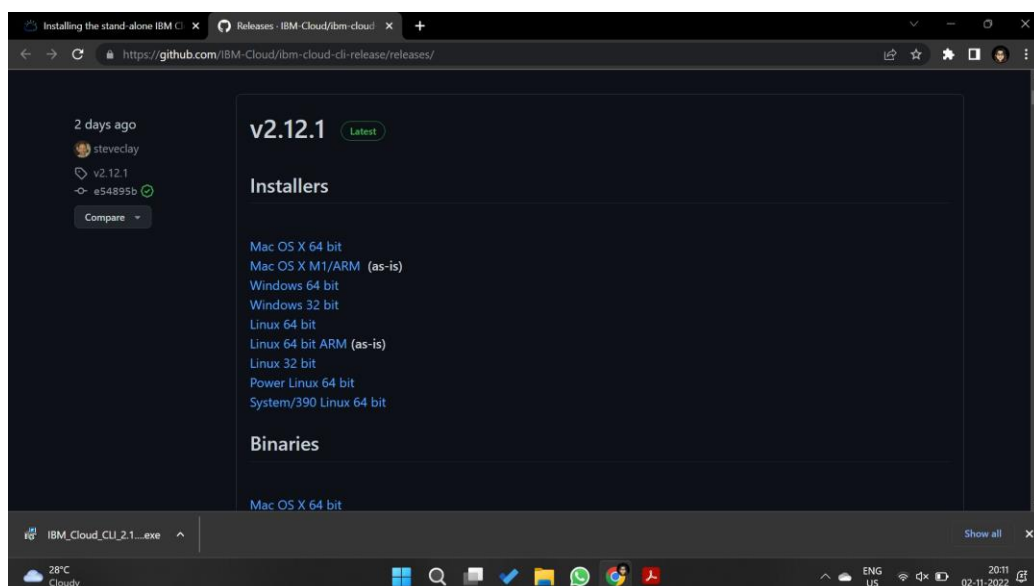

Step 1: To start with IBM cloud installation check the official website :

<https://cloud.ibm.com/docs/cli?topic=cli-install-ibmcloud-cli>

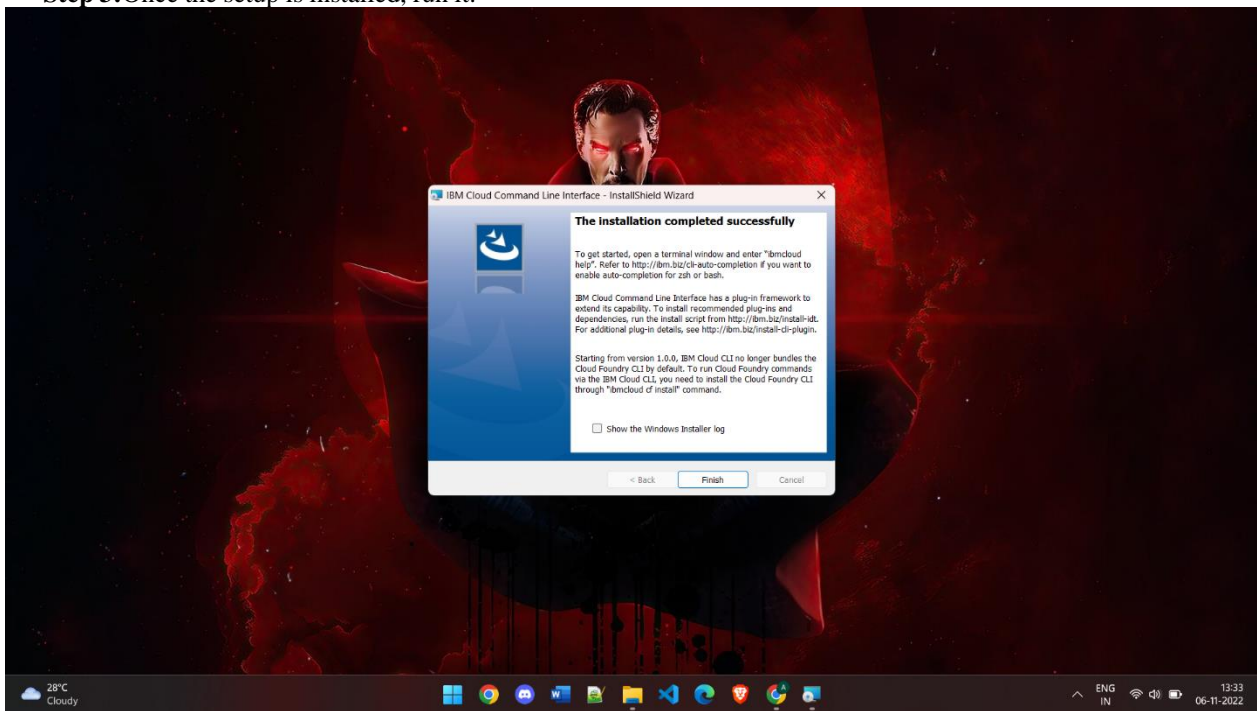

Step 2: Move forward to the git link specified in the installation guide

<https://github.com/IBM-Cloud/ibm-cloud-cli-release/releases/> and select the suitable link to download the setup according to the system configuration.

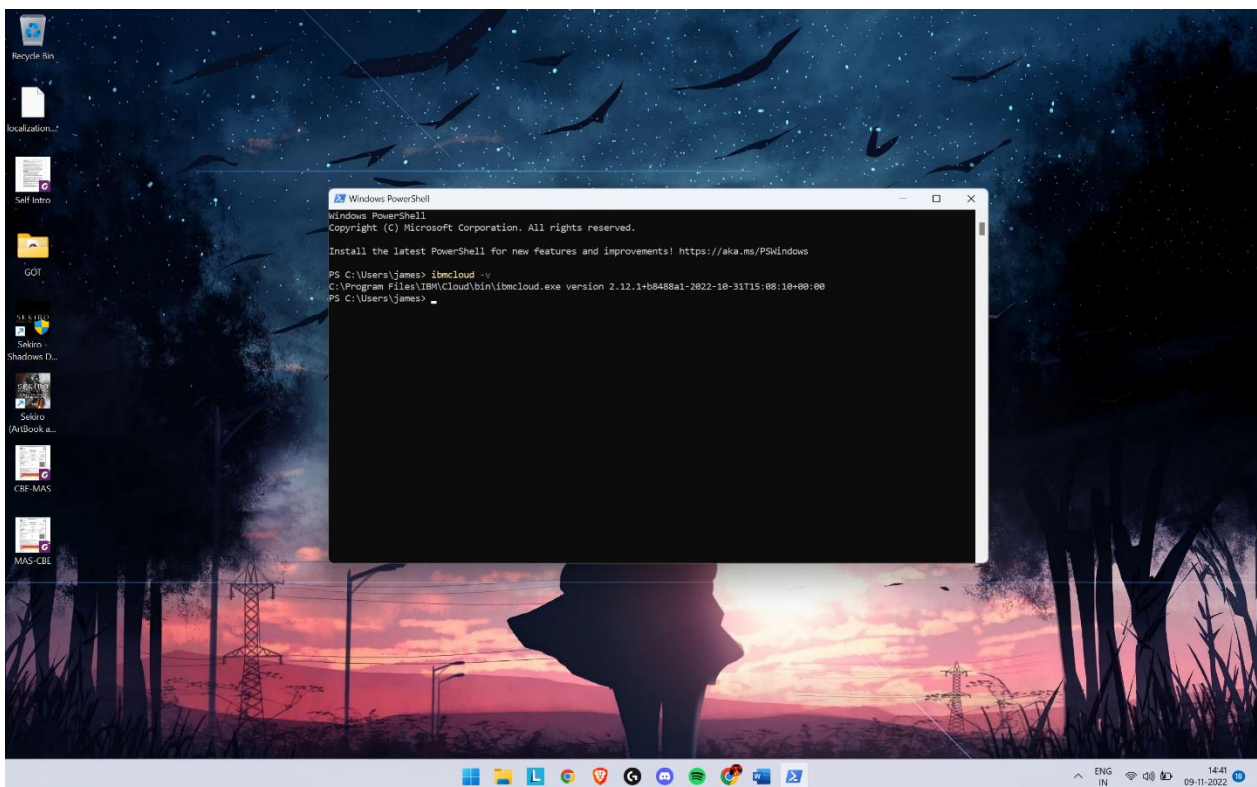

Step 3: Once the setup is installed, run it.

Step 4: Now go to the command prompt and check if the IBM Cloud CLI is installed properly and along with it check for the updates.

For version check: **ibmcloud -v**

For update check: **ibmcloud update**

Step 5: Use the IBM login credentials to successfully finish the IBM Cloud CLI installation and use the IBM CLI guide on the official websites for any plugin installations.

To Login: **ibmcloud login**
